13 Students Drowned.

Victoria, British Columbia.—From Enosline, the steamer Suerve brought news of the drowning of 13 students, whose boat, while returning from an outing, was capsized by heavy seas. The drowned students were most of them sons of naval officers. One of the students, clinging to an oar, reached the beach, but died on the sand after being landed.

L. & N. Railroad is Fined \$10,000.

Louisville, Ky., March 16.—In the Federal Court today the Louisville and Nashville Railroad pleaded guilty on ten counts in eight indictments charging rebating and Judge Evans imposed a fine of \$10,000 for each count, or a total of \$10,000.

The eight indictments contained forty-seven counts but it was admitted that conviction on many of the counts was impossible.

Colonel Henry L. Stone, General counsel for the Louisville and Nashville made a statement to the effect that the violations were technical in nature and not willful and that no moral guilt attached to the company's officials. The remaining thirty-two counts were then dismissed by the court.

# Singing at Bradshaw.

On the second Sunday in March, as previously announced, the Sacred Harp singers of Bradshaw met and organized a society for the present year. The day was a pleasant one and a good number of singers from all parts of the county were present.

The house was called to order by J. M. Donaldson, and music lessons were conducted by C. H. Byrd and Marion Cain. Recess ten minutes.

The class then went into permanent organization for the year. J. M. Donaldson was elected chairman, L. F. Young vice chairman, W. J. Wise, Joe M. Davis, A. L. Johnson and Bob Pettis arranging committee.

The class was then led in two lessons each by the following leaders: Frank Matthews, A. L. Johnson, J. M. Davis, A. E. Ross, Dan Blair, Dock Donaldson, L. F. Young.

The class was then dismissed by the chairman until the second Sunday morning in April.

# Weevil Ruining Out Cotton Of South.

Washington, March 4.—The boll weevil is threatening the destruction of the cotton crop of the South, east of the Mississippi river and partly west of it, according to testimony given today before the senate committee on agriculture by Senator Smith of South Carolina. A reduction from twenty five thousand to two thousand bales a year was caused in one county of his state by the boll weevil, he claimed.

Representative Dickson of Mississippi told the committee that the boll weevil was producing disastrous results in his district. He declared that in the past eighteen months about 1,500 families had left his county as a result of the visit of the pest. Estimates given to the committee placed the loss to the cotton crop last year at from twenty five million dollars to thirty five million.

# Coughs That Hang on.

# Emerson's Counsel.

This was Emerson's advice to his daughter, "Finish every day and be done with it. You have done what you could. Some blunders and absurdities no doubt crept in; forget them as soon as you can. Tomorrow is a new day; begin it serenely and with too high a spirit to be cumbered with your old nonsense. This day is all that is good and fair. It is too dear, with its hopes and invitation" to waste a moment on the yesterday.

About the hardest man to discourage is the political prophet. Though the frost of defeat falls on him often, he springs up again in a night, and is just as willing to tell how each county and precinct is going in any particular election as if he had never missed his guess.

# A NEW DEPARTURE.

Telephone to Supersede Telegraph on the Southern Railway.

Atlanta.—The telephone is to take place of the telegraph on one of the most important sections of the line of the Southern railway system, between Washington and Atlanta, according to announcement made by the company. On the 123 miles between Monroe, Va., and Greensboro, N. C., the company is preparing to put into operation a system of dispatching trains by telephone.

Two complete metallic circuits are being installed, one for train orders and one for messages, with instruments at each station on the line. The installation of these circuits is nearly complete and the service will be put into operation within the next few weeks. It is expected that the substitution of the telephone for the telegraph in the work of moving trains will ultimately be extended over other parts of the Southern Railway system.

That part of the line on which the telephone is being installed will, when work under construction is completed, have fifty-four miles of double track. The traffic over it is very heavy and an excellent opportunity will be afforded for the demonstration of the merits of the new system. In substituting the telephone for the old telegraph system of train orders the Southern Railway is following the policy of bringing its lines to the highest possible state of efficiency. The telephone system has several advantages over the telegraph. It is said the service is quicker in operation and errors can be better guarded against.

# EXPLOSION KILLS SEVEN.

Catastrophe in Mine Near Wilkesbarre, Pa.

Wilkesbarre, Pa.—Seven men lost their lives by an explosion of gas in the No. 5 shaft of the Lehigh and Wilkesbarre Coal Company, near here. There were eight men in the gang, but Martin Williams escaped death because he had left the point where the explosion occurred only a few seconds before the accident.

It is thought that all of the men were instantly killed, as there was no sign of life when the rescuing party, which immediately entered the mine, reached the bodies.

It is thought the gas became ignited from one of the miners' lamps. Near by all of the married men had large families, and there were many pathetic scenes as the bodies of the victims were brought to the surface.

# Cuban Lottery Again Fined.

Tampa, Fla.—Teodoro Carbonelle, a small storekeeper of Port Tampa, recently arrested on a charge of being an agent for the Cuban National Lottery, was tried and convicted of violation of the American lottery law and fined \$1,000 and one year in the state penitentiary. This is the first conviction ever secured in this country on a similar charge. The Cuban lottery has been doing an extensive business here.

# Tech May Get \$50,000.

Atlanta.—The sum of \$50,000 is to be given to the Georgia School of Technology for a Young Men's Christian association building by John D. Rockefeller, provided the friends of the institution will raise an additional \$25,000. The millionaire's intended gift was made known by Dr. K. O. Matheson, president of Tech, on his return from Augusta, where he visited Mr. Rockefeller.

Spartanburg, S. C.—A telephone message was received here that the business section of the little town of Lanford, in Laurens county, was almost wiped out by fire, several stores and residences being burned.

## An Indigestion Remedy Free

Many people who are otherwise  
healthy suffer from indigestion, or  
dyspepsia. When you consider that  
the stomach and allied digestive or-  
gans are the most important organs  
of the body, it would seem that a dis-  
order there is to be taken very seri-  
ously.

Dyspepsia cannot eat the things they  
like; food stays in the stomach; then  
chronic constipation begins, and as is often  
the case, you have been constipated all  
along, and the stools are forced and  
irregular.

But there is no use letting indigestion  
ruin your health. It is good advice to  
get and get a bottle of Dr. Caldwell's  
Syrup Pepsin, the wonderful cure for  
stomach, liver and bowel troubles. This  
is what C. Fowler, of Cairo, City, Mich.  
did and he is well today. Others who did  
the same and are cured are J. A. For-  
tune, of Grand Junction, Tenn.; H.  
Thompson, of Birmingham, Ala.; who  
actually considers that it saved his life.

It is a liquid, acts gently, never gripes,  
and besides the laxative effect, contains  
exceptional tonic properties which tone  
the stomach, and that is what is es-  
pecially needed in indigestion.

All sufferers from indigestion who have  
never used Dr. Caldwell's Syrup Pepsin  
can obtain a free test bottle by writing  
the doctor. It will be sent direct to your  
home without charge. Thousands have  
proved to their own satisfaction that  
the very remedy they needed to cure in-  
digestion. When once you use this grand  
remedy you will throw violent cathartics,  
tablets, salts, etc. away.

If there is anything about  
your ailment that you don't  
understand, or if you want  
any medical advice, write  
to the doctor, and he will  
answer you fully. There is  
no charge for this service.  
The address is Dr. W. B.  
Caldwell, 500 Caldwell Bldg.,  
Monticello, Ill.

For State Senator.

I hereby announce myself as a candi-  
date for State Senator from the 25th  
Senatorial District (composed of the  
counties of Coffee, Crenshaw, and Pike.)  
subject to the rules and regulations of  
the Democratic party as prescribed to  
govern the primary election to be held  
May 2, 1910. My platform follows:

Schools—I shall support all measures  
enabling the children to secure the  
highest practical education.

Confederate Veterans—I will be as  
liberal with the veterans as the finances  
of the State permits.

Good Roads—I will use my best efforts  
to enact laws which will improve the  
highways of the State without unduly in-  
creasing the burden of taxation.

Liquor Traffic—After giving the pro-  
hibition laws a fair and impartial trial  
and they prove to be failures, I shall  
favor local option (on a population basis,  
with the county as a unit where practi-  
cable) surrounded with such safe guards  
as will not permit the return of the evils  
that attended the old way of conducting  
the liquor traffic.

Useless offices—I shall labor for the  
abolition of all laws that provide for useless  
offices.

Taxation—I shall labor for the adjust-  
ment of taxation so that all shall bear  
their just share of the burden of govern-  
ment.

In all other matters I shall be govern-  
ed by the will of the people whom I  
represent.

H. V. Brooke.

I hereby announce myself as a candi-

WHO  
WILL  
GET  
THE  
PIANO?

## The Piano Contest at City Drug Co's. Store

is increasing in interest each day, and much friendly rival-  
ry exists between the contestants for the prize. The prize is a  
beautiful piano, that is to be given away absolutely FREE by  
The City Drug Co.

The piano has been tested by several experts, and all of them expressed them-  
selves as being much pleased with the tone of the instrument as well as the style  
and finish of the case. This piano will be given to the lady who secures the great-  
est number of coupons. We want YOU to come to our store and examine the pi-  
ano. We want you to ask any question you want about the contest, and we will  
take pleasure in explaining the plan to you.  
REMEMBER we deliver packages to all parts of the city, and all you have to do to  
help your friends in the contest is to phone us for what you want: of course this  
applies to people in the country as well as those in town.

## City Drug Company,

With meat selling at 15c. the  
prospects good for it to go still  
higher, no farmer can afford to  
neglect his hog crop for cotton  
even if he was sure of getting 15c.  
for it next fall. A pound of cot-  
ton is worth more than a pound  
of bacon, because it cost  
more to raise it. Yet it is prob-  
able that more than a pound of  
cotton will have to be given for a  
pound of bacon next fall by those  
who neglect to raise a home sup-  
ply.

the blood. They work wonders  
for weak, run-down men and

Does the  
Baby Thrive

If not, something must be  
wrong with its food. If the  
mother's milk doesn't nourish  
it, she needs Scott's Emulsion.  
It supplies the elements of fat  
required for the baby. If baby  
is not nourished by its artificial  
food, then it requires

SCOTT'S  
EMULSION

Half a teaspoonful three or  
four times a day in its bottle  
will have the desired effect. It  
seems to have a magical effect  
upon babies and children. A  
fifty-cent bottle will prove the  
truth of our statements.
